DATA CENTER "HYBRID" SOLUTIONS

IN BRIEF

Experience

- More than **37 years** designing, engineering, constructing, and commissioning advanced computing and technology facilities.
- More than 5,500 projects in higher education, healthcare, banking/financial, industrial, pharmaceutical, public sector, and retail with a **98% repeat customer base**.
- Business partnerships with Dell, Accenture, IBM, OnX, The Gartner Group, Mainline, Bechtel, Verizon Business, Data Span, Mark Levin & Partners, Deloitte (Collaborations), Carter Validus, Vicom, SGI, Sine Nomine, SBC Consulting, and Cloudify.
- Full-service staff of licensed civil, electrical, mechanical engineers, and architects as well as construction project managers, IT consultants, systems specialists, Revit and CADD technicians, and other skilled professionals.

Consulting Services

Thorough and comprehensive, resulting in a **plan that provides options and technical alternatives** to meet your timeframes, philosophies, short-term and long-term strategic objectives, as well as budgetary guidelines.

- Data Center "Hybrid" Assessments
- Site Evaluation, Selection, & Planning
- Reliability Studies
- Single Point of Failure Analysis
- Data Center Facility Audits
- DR Facility Requirement Studies
- LEED Certification Analysis
- Colo/Cloud Analysis
- Container/Pod Studies
- Network Analysis/Wi-Fi Analysis
- Total Cost of Ownership Studies
- Virtualization Integration
- Relocation Evaluations
- Merger/Consolidation Studies
- Space Planning
- Computer Equipment Planning
- Requirements Analysis
- Preliminary Program Studies
- Thermal Air Flow Analysis
- Energy Efficiency Audits
- IT Business Impact Analysis
- Site Assessment Evaluations
- Facility Evaluations
- IT/Data Center Strategic Planning

Design/Engineering Services

Drawings and specifications that reflect **creative, state-of-the-art design solutions**.

- Architectural Design
- Site/Civil Engineering
- Communications Engineering
- Electrical Engineering
- Mechanical/HVAC Engineering
- Structural Engineering
- BMS/DCIM Modeling
- Fire Protection Engineering
- Raised Floor Engineering
- Security Design
- Voice and Data Integration
- Design for Sustainability
- 3-D Revit Modeling
- Network Design

Construction Services

A fully integrated approach to the creation of technical facilities that gives you a **single source of responsibility from start to finish**. This unique methodology eliminates traditional construction delays, enhances responsiveness to design modifications, and guarantees necessary technical expertise - throughout the project. We also offer options for corporations looking to reduce overhead by **outsourcing construction and maintenance responsibilities**.

- Construction Management
- Construction Administration
- General Contracting
- Project Management
- Project Planning & Scheduling
- Turnkey Planning, Implementation
- Commissioning
- BIM Modeling
- Financing
